Bloodhound Health Guarantee, Terms, and Conditions of Sale

READ THIS AGREEMENT CAREFULLY BEFORE SIGNING IT. YOUR SIGNATURE INDICATES YOU UNDERSTAND IT AND AGREE TO ITS TERMS.

Boerner's Bloodhounds is licensed by the Texas Department of Licensing & Regulation, License #118
Dog and cat breeders are regulated by the Texas Department of Licensing & Regulation, P.O. Box 12157, Austin, Texas 78711,
(800) 803-9202, (512) 463-6599, www.tdlr.texas.gov

I hereby acknowledge that the deposit for the bloodhound puppy is non-refundable for any means if the decision is made to cancel the purchase at any time prior to picking up the puppy. I also acknowledge that the total sale price for the bloodhound puppy with AKC Registration as described below, is non-refundable for any means, except as defined below, if the decision is made to cancel the purchase once the puppy has left with the new owner.

The new owner will receive the AKC Registration number and a copy of the registration paper upon signing this agreement. The breeder will also register each puppy directly into the new owner's name upon the final payment of the puppy and after receiving the full AKC name the new owner wishes to have on their puppy's Registration Certificate. Do NOT send in your AKC Registration paper or try to register on line. This will only delay the process. No cost for the AKC registration will be due. However, the new owner may receive offers from AKC for additional products. The AKC registration certificate will be sent directly to the new owner by AKC.

Each puppy is microchipped by the breeder and will also be registered by the breeder with AKC Reunite, so that you can be reunited with your pup if ever lost or stolen. The owner information provided by the owner upon signing this contract will be used to register your puppy. The website to view your puppy's microchip information or make changes is www.akcreunite.org. There is more info in the attached flyer. Please remember that you do **NOT** need to register your microchip, as this will be done by the breeder. Your puppy's microchip number is also included in this agreement.

Puppies were vet checked and were administered their first set of shots and physical exam on the date given in your Puppy Shot Record. Puppies are checked for problems with heart, eyes and ears. They are also checked for cleft palate and issues with testicles (if male). Again, this is a physical exam and no lab testing, etc was done. All puppies were found in very good health with no visible problems unless noted below.

Seller guarantees the puppy to be in good health to the best of their knowledge and free of genetic defects that make the puppy not suitable for the purpose of a "Family Pet" until the puppy is 6 months of age.

*The Buyer understands that the following slight genetic defects are not considered serious or life-threatening and therefore are not covered: Umbilical Hernia, Undescended Testicle, Underbite or Overbite, entropion, or ectropion.

*We also do not guarantee against Parvo, Corona, Coccidiosis, Coccidia, Toxidia, or Giardia after 24 hours of purchase.

Initial _____

*Buyer understands that the replacement option is only valid when health problems are attributed to a hereditary problem and not due to accident or contagious and/or other illness.

*Buyer understands that any and all guarantees expire at 1 (one) year of age.

*Within one week after purchasing, the puppy should be examined by a veterinarian for any defects and a vaccination schedule should be set up. The puppies have been and are under the care of Fredericksburg Equine & Small Animal Veterinary Clinic, 937 Leyendecker Rd., Fredericksburg, TX 78624 – (830) 990-9052

Our puppies & dogs have not been exposed to infectious diseases here. If your puppy is exposed to an infectious disease after it leaves here, this is not covered under the health guarantee. Our parents are free of diseases, disorders, and health problems, or we would not breed them. That means the puppies are less likely to develop problems. However, we can't guarantee that puppies will never develop a problem, just like a pediatrician cannot guarantee that a child will never develop any health problems in the future. If said puppy is found to have a genetic defect, proof from a licensed Veterinarian is to be sent to Seller with copies of all findings and tests performed. The Seller will not pay for any veterinarian costs for the puppy after it has been delivered to the buyer. No partial refunds will be provided for any defects. At that time Buyer will be given the option of taking a replacement pup out of the next two litters available. If Buyer does not take a replacement pup at that time, then the contract is NULL AND VOID. If Replacement pup is of higher value, then the Buyer will be responsible for the price difference. We cannot guarantee that replacement pup will be of same bloodlines. Shipping of the replacement pup will be at the Buyer's expense.

Upon receiving the puppy or at any time in the future, if the buyer cannot maintain a reasonable quality of life for the said puppy/dog or just cannot keep the said puppy/dog, then buyer will return the puppy/dog to David and Nancy Boerner with no questions asked and no monies due, at buyer's expense. The puppy/dog must not be resold to any type of **Puppy Mill Operation, Dog Auction or Pet Store**, nor any buyer where there is reason to believe that the puppy/dog will not be properly cared for. Seller holds the right to take legal action against the Buyer if any of the above is found. Seller also holds the right to take immediate possession of said puppy/dog.

Destruction of any kind to any property or harm to any person is now my responsibility and Buyer does not hold the litter owners liable for any reason. Buyer promises to take care of their new friend to the best of their ability.
